

Excel Business Toolkit

Spreadsheet planning templates and KPI definitions

Core sheets to create

- Monthly sales tracker
- Expense tracker
- Lead pipeline
- Inventory tracker
- Task tracker
- Monthly KPI dashboard

Recommended columns

- Sales: Date, Customer, Product, Quantity, Amount, Payment Status
- Leads: Date, Lead, Source, Stage, Value, Next Action
- Expenses: Date, Category, Description, Amount, Payment Method

KPI formulas

- Revenue = total sales value.
- Average order value = revenue ÷ number of orders.
- Conversion rate = converted leads ÷ total leads × 100.
